Around the outside of the iRig Pro DUO you'll find a wide assortment of connections, with two 1/4" TRS/XLR combo jacks at the base for connecting audio input, a 3.5mm MIDI IN and OUT ports. IRig PRO DUO is a mobile two-channel Audio and MIDI interface in an ultra-compact, portable enclosure. It features all of the most common connections a musician needs to make high-quality recordings on the go with iPhone, iPad or Mac/PC. But I'd still like to know whether this device can be used before I go looking for another interface. What name should show up for the device? After looking at the manual, it appears that when I plug into a PC, the IK is in 'standby' mode.

5mm MIDI IN and OUT ports. IRig Mic Recording studio XLR microphoneAn XLR version of the iRig Mic Facilities, this microphone is certainly a large-diaphragm analog condenser for vocal and device recording. IRig PRO DUO comes with two analog XLR/TRS combo inputs for connecting microphones, instruments or MIDI devices. I updated a ticket on the topic 146898, It's an oldie from the last time I got stuck. IRig Professional Duo USB sound interfaceiRig Professional Duo is definitely the smallest full-featured dual-channel sound/MIDI interface on the market. The lights on the Pro Duo are a dim blue I tried different USB ports, fresh batteries, even a DC adapter to power it, but Windows doesn't see it (nor the firmware updater).
